

Crew/Skipper Communication & Coordination

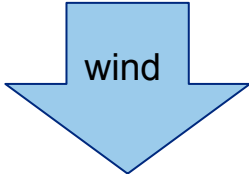

What Crew should communicate

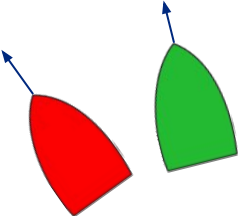

- Position relative to other boats
 - Other boats that have right of way over you
 - Speed relative to other boats around you
 - Angle relative to other boats around you
- Wind/course
 - Puffs ahead of you
 - Whether you think they will be lifts or headers
 - Current
 - Layline
 - Which gate looks higher, which end of the line is higher
- Misc
 - Remind to keep weight together
 - Ask skipper what info they want
 - (Communication at starts is a whole other topic)

Position relative to other Boats

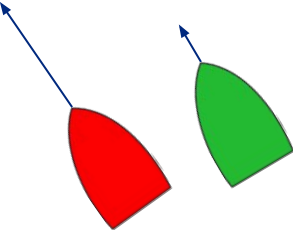

Angle:
Green is pointing higher than red

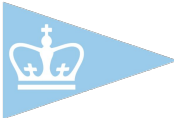

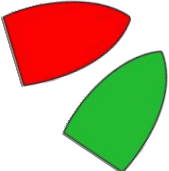

Right of Way:
Green has right of way over red

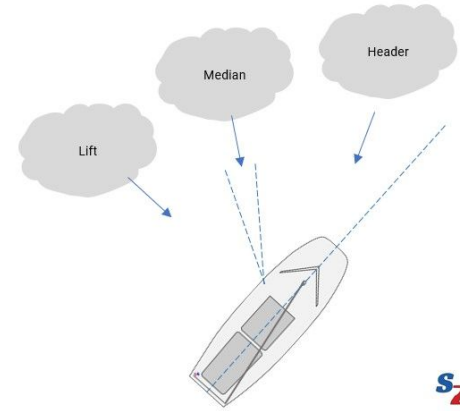

Speed:
Green is going slower

Right of Way:
Green has right of way over red

Wind/Course

Layline
